### VISIONANDMISSIONOFTHEINSTITUTE

#### VISION:

We, at AITH strive to inculcate a sound knowledge of engineering and managing in students along with social responsibility and ethical practices, to enable them to face impending challenges so as to carve a niche for the country in the global arena.

#### MISSION:

AITH mission is to create committed and self-motivated engineers and managers, equipped to offer innovative solution and unconditional service for benefit of the society and the world at large.

#### QUALITY POLICY:

AITH is committed to provide quality education to the state of art infrastructural and instructional facilities. To achieve academic excellence, impart high quality technical education, training, expertise in various industries and engineering programs, thinking process of students besides promoting their engineering and technological skills.

### VISION AND MISSION OF THE DEPARTMENTS

#### CIVIL ENGINEERING

##### ABOUT DEPARTMENT:

The AITS Hyderabad Department of Civil Engineering was established in the academic year 2011, with an annual intake of 40 students. The number of students further went up to 120 in the year 2013.

The Department has requisite number of faculty members, striving to incorporate excellence in theory and practice. A team of dynamic, dedicated, well qualified and experienced academicians such as Professors, Associate Professors, Assistant Professors & Senior faculty with vast research experience are available in our departments.

##### VISION:

To achieve Excellence in Technology, Innovation and Research in ethical way to Lead and Serve the Nation and to be recognized as a premier Civil engineering department in the region. To Prepare students as competent civil engineering professionals dedicated to the progress and development of the humanity and countries.

##### MISSION:

- Create and develop sustained environment of learning, to nurture the students into highly skillful and ethical professionals by imparting quality education with social obligations.
- To establish collaborative partnerships with academic, research and industrial entities to provide a knowledge base for existing and emerging technologies to enhance the skills in innovativeness, management skills and lifelong learning in civil engineering students.
- To provide students with the principles and methodologies needed for civil engineering practice and prepare students for leadership roles in Civil Engineering.

### DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

#### ABOUT DEPARTMENT:

The Dept. of Electrical and Electronics Engineering at Annamacharya Institute of Technology and Sciences, was set up in the year 2006 to impart high quality technical education. Department has a strong pool of faculty, that also includes well acclaimed R&D specialists. The department's professors and lecturers done an unparalleled level of expertise in their fields.

#### VISION:

We, at AITS strive to inculcate a sound knowledge of Engineering and management in students along with social responsibility and ethical practices, to enable them to face impending challenges so as to carve a niche for the country in the global arena.

#### MISSION:

- M1: To provide the skilled manpower with state-of-art knowledge in Electrical and Electronics Engineering.
- M2: To provide the Professionals to the nation with innovations and ideas in the area of advanced Electrical and Electronics Technologies through research and graduate studies.
- M3: To provide the professionals for participating in the design and development process of industries and society

### DEPARTMENT OF MECHANICAL ENGINEERING

#### ABOUT DEPARTMENT:

A separate section for Mechanical Engineering was introduced in the year 2010, at AITS Hyderabad. However, what started as a small-scale academic unit has now grown to be a full-fledged department with well qualified experienced and dedicated staff members.

The Mechanical Engineering department also boasts of an excellent infrastructure facilitating for training the students on and about the latest technologies. The department also has modern laboratories, with sophisticated equipment for training students, and also houses a largely spaced central library donned with several books.

#### VISION:

To be distinguished as a center of excellence in the field of Mechanical Engineering, where teaching, learning and research synergize to deliver technical education and scientific research for public good.

#### MISSION:

- To impart quality education to create efficient Mechanical Engineers who can compete at the global level.
- To build State-of-the-art research facilities in Mechanical Engineering in order to enable the faculty and students to learn and disseminate knowledge and innovate in their applications.
- To foster the spirit of entrepreneurship and encourage consultancy to enable all-round personality development in students.
- To improve communication skills to excel in higher studies and placements.
- To facilitate teamwork culture and improve the social standards and quality of life of graduates.

### DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

#### ABOUT DEPARTMENT:

The ECE department was established in the academic year 2006 with an annual intake of 60 students. The number of students further went up to 120 in the year 2007.

The Department comprises of a team of dynamic, dedicated, well qualified, and experienced academicians. They are all professors, associate professors, assistant professors and senior faculty with vast research experience in their respective fields.

#### VISION:

To be a place of academic excellence by imparting quality education, carrying out research and technology development in frontier areas of Electronics and Communication Engineering.

#### MISSION:

**M1: Professional Growth:** To shape graduates into hard core professionals who would become effective leaders and noteworthy innovators in the technology areas of Electronics and Communication Engineering.

**M2: Lifelong learning:** To motivate and encourage our students to engage in lifelong learning which would help them keep abreast with contemporary developments in their fields of operation and enable them to leverage on the power of knowledge to become outstanding performers in whatever career they choose.

**M3: Team work:** To inculcate creative thinking through innovative and group work exercises which enhance the Entrepreneur skills, Employability and Research capabilities.

**M4: Skill Development:** Enable students to develop skills to solve complex technological problems of current times and also provide a framework for promoting collaborative and multidisciplinary activities.

### DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

#### ABOUT DEPARTMENT:

Established in 2005, this AITS Department of Computer Science & Engineering (CSE) is empowered with well qualified and experienced faculty members. The CSE department houses expert faculty who have, with their years of experience mastered the art of imparting knowledge on diversified courses at the UG and PG levels. The teaching methodology applied goes beyond fulfilling the syllabus requirements of the University, to meet today's industry needs.

#### Vision:

To create the most conducive environment for quality academic and research oriented undergraduate and postgraduate education in computer science and engineering and prepare the students for a globalized technological society and orient them towards serving the society.

#### Mission:

- To impart high quality professional training at the postgraduate and undergraduate level with an emphasis on basic principles of computer science and engineering.
- Impart high quality professional training to get expertise in modern software tools and technologies to cater to the real time requirements of the industry.
- To impart moral and ethical values, and interpersonal skills to the students.
- To empower the students with the required skills to solve the complex technological problems of modern society and also provide them with a framework for promoting collaborative and multidisciplinary activities.

### DEPARTMENT OF HUMANITIES AND SCIENCES

#### ABOUT DEPARTMENT:

The Humanities and Sciences Department is an ancillary department headed by Mr. G. Kiran Kumar, Associate Professor. The department plays a major role in shaping students' careers.

The department conducts specialized courses which are offered as a part of the curriculum, teamed-up with other main branches of specializations.

#### Vision:

To turn out engineering graduates with awareness and to empower individuality and intellectuality with outstanding professional excellence in any field. To prepare students for fulfilling careers and lives enriched by a deep understanding of human diversity and creativity.

#### Mission:

- To provide a conceptual base in basic sciences which form a foundation to the Engineering subjects?
- To strengthen the Department by integrating with Engineering departments for a productive knowledge base.
- To create leadership qualities with futuristic vision
- To equip the students with required skills according to requirements of industry
- To cultivate adaptation of ethics, morality and healthy practices in professional life
- To instill habit of continual learning
- To provide practical Learning.
- To encourage and support creative abilities and research temperament
- To impart soft skills, communication, problem solving and presentations skills.
- To encourage students for healthy participation in social welfare activities.

### DEPARTMENT OF MASTER OF BUSINESS ADMINISTRATION

#### VISION:

To be a center of excellence for management education and nurture young minds into professionals with high values, passion, integrity and entrepreneurs spirit.

#### MISSION:

To

- Offer enriching learning experience.
- Provide cutting edge paradigms to the aspiring managers.
- Highlight the contemporary management practices and enlighten the budding managers.
- Adopt innovative approach in introducing business world to the students.
- Influence the students with uncompromising human values so as to make them as ideal corporate citizens.

### FUNCTIONS AND RESPONSIBILITIES

#### Governing Body:

Governance is the key activity that acts as a bridge between the management and stakeholders constitute the Governing Body. Annamacharya Institute of Technology and Sciences has a strong governing members constitute; a group of intellectuals from industry, academia and different luminaries from various walks of life that devices all policies and decisions related to both academic and administration. To ensure the efficient and effectiveness of governing body, a number of academic and administrative bodies have been formed with duties and responsibilities. The governing body meeting shall meet twice in a year, to discuss various issues and aspects contributing academic and administrative for the development of the college. During the meeting the suggestions from planning and monitoring board are resolved.

#### **Major Responsibilities of Governing Body**

1. Upload the legal stature of the college in line with the policies of AICTE, UGC, State Government and affiliating university i.e., JNTUH Hyderabad or any other agency.
2. Taking decisions regarding increase or decrease in intake and adding new program or closure of existing program, Guiding the principal to take formal steps with the affiliating body to put them into action.
3. Fix the fee structure and any charges applicable in accordance with the recommendation of the AFRC Board.
4. Approval of the budget for the respective financial year.

### MINUTES OF THE GOVERNING BODY MEETING HELD ON 18-11-2023

#### AIMS – HYDERABAD

Minutes of the Meeting of the Governing Board of Annamacharya Institute of Technology and Sciences, Hyderabad held at 11.00 AM on Saturday, 18-11-2023 in the College Campus.

Dr. S. Nagabhushana Rao, Chairman – GB, chaired the meeting and extended a warm welcome to the members attended.

#### Members attended the meeting are:

01	Dr. S. Nagabhushana Rao	..	Chairman
02.	Sri C. Abhishek Reddy	..	Member
03	Sri. N. Babu Rao	..	Member
04	Sri P L S P Raja Rao	..	Member
05	Dr. K. Sunder Kumar	..	Member
06	Dr. M. Madhavi Latha	..	University Nominee
07	Dr. P.V. Krishna Murthy	..	Member Secretary

..   
 .. C. Abhishek Reddy  
 .. N. Babu Rao  
 .. P. L. S. P. Raja Rao  
 .. K. Sunder Kumar  
 .. M. Madhavi Latha  
 .. P. V. Krishna Murthy 18/11/23

#### Members not Present:

01.	Sri C. Gangi Reddy	..	Member
02.	Prof. A. Sudhakar Reddy	..	Member

#### The G.B resolved:

- 1) To confirm the minutes of the previous meeting held on 02-11-2023.
- 2) To Submit the SSR report, by rectifying all the points given by NAAC. To apply for upgradation of the present accreditation of NAAC B+ Grade.
- 3) To introduce the new emerging course ALML in Diploma, proposed to increase the existing intake in CSE from 120 to 180 by reducing intake in the branches of Civil from 60 to 30 and Mechanical from 60-30.

### National Education Policy

**New National Education Policy 2023:** The New National Education Policy is nothing short of revolutionary in the education system in India. After our education policy monotonously followed the same norms for 34 years, the **Ministry of Education (formerly known as MHRD)** did some serious amendments in it on **29 July 2020**. This New National Education Policy was recently approved by the Indian government in 2023. So, it is only natural that the question "What this New National Education Policy actually is?" must be coming to people's minds. Our article is here to provide them with the answer to this question. Here, we will discuss all the key aspects of the New National Education Policy. Moreover, we will thoroughly explain the NEP 5+3+3+4 structure.

When the NEP was launched in 2023, its motto was **Educate, Encourage and Enlighten**. The government's purpose to launch this policy was to develop 21st-century skills in the students of India. The amendments in NEP from the previous education policy strive for Research, Innovation, and Quality. For the seamless implementation of this education policy, the government is willing to give big funds. In 2021, Nirmala Sitaraman said that funds of Rs. 50,000 crores will be given to the National Research Foundation, and Rs. 40 crore to Ekalavya Schools.

Name of the Education Policy	National Education Policy 2023
Organized by	Ministry of Education, India
The motto of the Policy	Educate, Encourage and Enlighten
Launch Date	29 July 2020
Number of Editions of Education Policy in India	3 (1968, 1986, and 2020)
Major Amendment From the Last Education Policy	Replacement of 10+2 Structure by 5+3+3+4 Structure
Four Pillars of the Policy	Access, Equity, Quality, and Accountability
Aim of the Policy	100% Youth and Adult Literacy

### NEP 2023 Major Reforms

The following is the list of all the Major Reforms in Education Policy according to the NEP 2023.

- There will be no substantial distinction between arts, science, academic, vocational, curricular, and subjects of extracurricular streams.
- There will be extra emphasis on Foundational Literacy and Numeracy.
- Substitution of 10+2 structure with a 5+3+3+4 model.
- No imposition of State Language on Students studying in any State.
- Permission of taking Board Exams two times for the students.

## ANNAMACHARYA INSTITUTE OF TECHNOLOGY & SCIENCES

Piglipur(V), Batasingaram(Post), Adbullapurmet (M), R R Dist., Hyderabad - 501512

(Approved by A.I.C.T.E, Recognized by the Govt. of T.S., Permanent Affiliation from JNTUH, Hyderabad)

Accredited by "NAAC with "B+" Grade, Recognized by UGC Under Section 2(f) and 12(B).

Website: [www.https://aits-hyd.org/](https://aits-hyd.org/), E-mail : [principalaith@gmail.com](mailto:principalaith@gmail.com) , Contact No: 9848924705

- The government will spend 6% of the Country's GDP on Education instead of 1.7%.
- The Gender Inclusion fund will be fully established.
- The government will do extra efforts for providing proper education to the gifted children
- The UG Courses will be for 4 years.
- The minimum qualification to apply for the post the teacher will be a 4-year integrated B.Ed Course.
- There will be an introduction of a Common Entrance Test for admission to HEIs.
- The Master of Philosophy course will no longer be a part of the education system.
- The students will be able to opt for different subjects such as arts, crafts, vocation skills, and physical education in Secondary School.
- The Standards for Board Exams will be set by the body PARAKH (Performance Assessment, Review, and Analysis of Knowledge for Holistic Development)
- The government will make literature of India and other classical languages part of the syllabus in schools.
- The exams for students will be held only in classes 2nd, 5th, and 8th instead of every academic year.

### What is NEP 5+3+3+4 Structure?

The most attention-grabbing amendment in the NEP 2023 is the replacement of the 10+2 structure with the 5+3+3+4 structure. The 10+2 has been prevalent in our education system for a very long time. So, a complete change in that system can be a bit perplexing for the students. Below we will try to explain the meaning of the 5+3+3+4 structure and how it is completely distinctive from the old 10+2 structure.

- The first stage of schooling for students is the Foundation Stage. In this, the early grooming of students will be done for 5 years. These 5 years will be 3 years of Anganwadi/ Pre-Primary/ Balvatika and first and second grade.
- The second stage will be the preparatory stage. This schooling stage will last for 3 years as well. Class 3rd, 4th, and 5th will lay the foundation for the middle and secondary stages.
- The third stage of schooling will be the middle school stage. In this from Class 6th to 8th. These three years will prepare the students for the final stage of their school life i.e. Secondary Stage.
- The final stage of schooling life for students will be the secondary stage, in this instead of 2 years; the students will have a complete four years from Class 9th to 12th to complete their secondary education.

### Significance of 5+3+3+4 Structure

The Government aims to emphasize more on the cognitive-development stage of the students through the 5+3+3+4 structure. Through this structure, the government will flesh out the schooling stages of students for their benefit. Contrary to the 10+2 structure, the 5+3+3+4 structure will strengthen the base of students from the foundational stage to the secondary stage. This new structure will also help the Right to Education to be fully utilized by the students. Since the structure covers ages from 3 to 18 instead of 6 to 14. Because of this, the students will be supported by the inception of their school life.

In addition to all of this, this structure will be handy in substantially increasing student retention rates. With the implementation of this structure, more students will stay in their respective schools for the entirety of their school life. In short, this new structure will be beneficial for the students in every conceivable way. Moreover, a higher literacy rate with this structure will only work for the betterment of our country's future.

### Effect of NEP on Teachers

Not only students will be impacted by the NEP, but it will influence teachers and teaching methods as well. According to NEP 2023, in order to be a teacher in a school you need to possess a B. Ed degree. The eye-catching thing about this is that this B.Ed course must compulsorily be a 4-year integrated course. Because of this policy, only competent teachers will join the schools and this will most definitely help for molding the future of students into the right path.

### NEP 2023 for UG and Higher Education

The students who will pursue UG and Higher Education will also be affected by the NEP 2023. According to the policy, the duration of a UG degree will be four years and these degrees will be multi-disciplinary, holistic, and flexible. Moreover, the students will be given multiple chances to opt for an exit from the degree course. For instance, the students will get a certificate for completing a 1-year vocational or professional field course. Whereas, they will get a diploma after 2 years and a Bachelor's degree after 3 years.

For PG courses, the course duration will be limited to 1 to 2 years. Also, the Master of Philosophy programs will no longer be accessible. The most ambitious decision for college-level education in this policy is that the college affiliation system will be fully phased out in the coming 15 years. Moreover, there will be a new body to supervise all the higher education courses excluding the legal and medical courses.

### NEP 2023 for teaching in the Mother Tongue or Regional Language

One of the most important reforms in NEP is that the students will get to study in their Mother Tongue or regional language till the 5th standard. Additionally, the government has also said that they can increase this limit to the 8th standard as well. By studying in their mother tongue, the students will easily comprehend what teachers are teaching them. Also, the students will get to know more about their language through this policy as well.

### National Education Policy 2023 Digital Inclusions

With the advancement of technology, digital methods of teaching have become a part of schooling recently. Let us have a look at the digital approaches the government will take toward the betterment of education through NEP 2023.

- The Government will establish a NETF (National Educational Technology Forum). This forum will work to elevate digital teaching methods in different schools by providing new and unique ideas related to it.
- In order to develop more resources for digital education, the Government will introduce a new unit that will work across the nation.
- There will be the integration of technology that will enhance the different procedures in the classroom.

### NEP 2023 Implementation by different States.

Let us have a look at all of those states that implemented NEP since it was proposed.

- Karnataka became the first state that issued an order related to the implementation of NEP 2022 in 2021.
- Later on 26 August 2021 Madhya Pradesh also decided to implement New National Education Policy.
- Uttar Pradesh CM Yogi Adityanath assures that the implementation of NEP will be in phases in the state.
- Goa is set to implement NEP in the state in 2023.
- States like Maharashtra, Andhra Pradesh, Rajasthan, and Assam are also making efforts for the implementation of New NEP.
- Meghalaya CM said that it will soon become the first state to fully implement the New National Education Policy.

### SHORT TERM GOALS:

- To enable 60% of Under Graduates to find immediate employment by conducting CRT, TASK programs for improving their skills and knowledge.
- Constant endeavor to maintain the laboratories with the good equipment.
- To provide an affordable high quality UG/PG education in the state.
- To attract and retain high quality faculty and competent supporting staff.
- To have at least one publication in referred journals by each faculty member every year.

### LONG TERM GOALS:

- To develop at least one innovative project from each Department and apply for patent rights every year.
- To generate at least 15% of the total revenue of the Institution from consultancy and collaborative projects.
- Collaborative research in partnership with Universities and Industries of International and National repute.
- To collaborate with global centres of excellence & exchange knowledge, technology, experience & create avenues for higher research.
- To develop professionals with global outlook, tempered with Indian values.
