ACCEPTANCE LETTER

Date: 10-03-2022

Dr.B.Acharya,
Professor,
NIT Raipur.

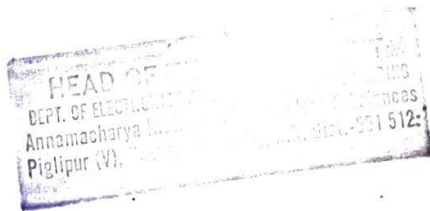

Sub: Acceptance for six days FDP on "Communication Systems Using Machine Learning Algorithms"(CSMLA) - Reg.

Dear Sir,

On behalf of Annamacharya Institute of Technology and Sciences, I cordially invite you to deliver lecture "Communication Systems Using Machine Learning Algorithms ", which we are going to plan from 14th to 19th March 2022. I would be thankful if you share your expertise on the topic with our faculty.

I will be eagerly looking forward to hear from you and hope that you would accept our invitation for event.

FDP SCHEDULE

- **1ST Day (14-03-2022, A.N.)**
Speaker Name: Prof. Ganapati Panda, IIT Bhubaneswar
Topic: Machine Learning in communication
- **2nd Day (15-03-2022, F.N.)**
Speaker Name: Prof. Ratnakar Dash, NIT, Rourkela
Topic: Introduction to deep Learning and its Applications
- **2nd Day (15-03-2022, A.N.)**
Speaker Name: Mr. J. Kondal Rao, NIT, Rourkela
Topic: Machine Learning in Computer Vision
- **3rd Day (16-03-2022, F.N.)**
Speaker Name: Prof. K. Vasudevan, IIT, Kanpur
Topic: OFDM for Frequency Selective Rayleigh Fading Channels
- **3rd Day (16-03-2022, A.N.)**
Speaker Name: Dr. B. Acharya, NIT, Raipur
Topic: Secure communication & chaotic crypto system for image encryption with deep learning
- **4th Day (17-03-2022, F.N.)**
Speaker Name: Prof. Bijayamanda Patnaik, IIT, Bhubaneswar
Topic: Optical Communication and Machine Learning
- **4th Day (17-03-2022, A.N.)**
Speaker Name: Dr. Samson Anosh Babu, IIT, Kottayam
Topic: Biological data analysis using machine learning and deep learning Techniques
- **5th Day (19-03-2022, A.N.)**
Speaker Name: Dr. Abdul Wahid, Telecom Paris University, Paris, France
Topic: Fraud detection in telecommunication

About the College

Annamacharya Institute of Technology and Sciences (AITS), Batasingaram, Hyderabad, Telangana was established in the year 2005 to play a pivotal role in the development of the intellectual capital in engineering fields. Annamacharya educational trust was founded in the year 1997 by a group of highly educated and service minded individuals with a noble intention of providing professional and higher education to the students. The college has excellent infrastructural facilities and modern laboratories. It also has highly competent and dedicated faculty. The college offers undergraduate programs in various engineering branches namely CSE, ECE, EEE, ME & CE with a total intake of 390 students. The college is accredited by NAAC with A score of 3.06 in A.Y.2014-15. AITS also offers postgraduate program in MBA with an intake of 60 students and M.Tech programs in ECE and CSE disciplines.

About ECE Department

The ECE department was established in the academic year 2006 with an annual intake of 60 students. The number students further went up to 120 in the year 2007. The Department comprises of a team of dynamic, well qualified and experienced academicians with vast research experience in their respective fields. It is a strong team striving to incorporate excellence in theory and practice. The ECE department also has been propagating research based knowledge through various conferences. The main aim of ECE department is to provide better quality education, as per the latest industrial needs, and train the faculty in new technologies on a regular basis. The education programmes for the development of students, faculty members and supporting staff are conducted regularly, to maintain industrial relations, and establish work stations in the field of wireless communications, VLSI, and embedded systems.

Aim of the Programme

This FDP is intended to provide opportunity for young faculty members working in engineering colleges and research scholars to enrich their knowledge in the field of Wireless Communication Systems, especially in Machine Learning Algorithms (MLA) using various soft computing techniques and Machine Learning Algorithms. This course aims for an in depth understanding of theoretical concepts in the above emerging and ever growing technological areas. The FDP will be useful for the faculty and researchers who wish to pursue or pursuing research in the areas such as Machine Learning Algorithms, Optical communication and Machine Learning, Machine Learning in communication, Introduction to deep learning and its applications.

Topics to be covered:

Optical communication, Machine Learning, Machine Learning in communication, Introduction to deep learning and its applications, Biological data analysis using machine learning and deep learning Techniques, Secure communication & chaotic crypto system for image encryption with deep learning.

Resource Persons:

Eminent personalities with expertise in related fields from reputed institutions of IITs, NITs, and International Institutions.

Eligibility:

Faculty of technical institutions with Electronics & Communication Engineering, Computer Science and Engineering, Machine Learning and Information Technology departments and research scholars in the relevant technical areas.

General Information:

Participants are requested to register by filling in the online registration form using the link provided below and send the scanned copy of duly filled form.

No registration fee for this FDP.

Important Dates:

Last date for registration: 11.03.2022

Confirmation to the participants: 13.03.2022

Selection Criteria:

CSMLA is expected to benefit faculty, researchers and academicians who are working in the area of the relevant disciplines. Selection will be done based on the First-Come-First-Serve basis. Decision of the Program Evaluation Committee (PEC) will be final in all regards.

Note: E-Certificate will be provided to those participants who attend all the sessions.

1. About the college

Annamacharya Institute of Technology and Sciences (AITS), Batasingaram, Hyderabad, Telangana was established in the year 2005 to play a pivotal role in the development of the intellectual capital in engineering fields. Annamacharya educational trust was founded in the year 1997 by a group of highly educated and service minded individuals with a noble intention of providing professional and higher education to the students. The college has excellent infrastructural facilities and modern laboratories. It also has highly competent and dedicated faculty. The college offers undergraduate programs in various engineering branches namely CSE, ECE, EEE, ME & CE with a total intake of 390 students. The college is accredited by NAAC with A score of 3.06 in A.Y. 2014-15. AITS also offers postgraduate program in MBA with an intake of 60 students and M.Tech programs in ECE and CSE disciplines.

2. About the department

The Electronics and Communication Engineering department was established in the academic year 2006 with an annual intake of 60 students. The number students further went up to 120 in the year 2007. The Department comprises of a team of dynamic, well qualified and experienced academicians with vast research experience in their respective fields. It is a strong team striving to incorporate excellence in theory and practice. The Electronics and Communication Engineering department also has been propagating research based knowledge through various conferences. The main aim of Electronics and Communication Engineering department is to provide better quality education, as per the latest industrial needs, and train the faculty in new technologies on a regular basis. The education programmes for the development of students, faculty members and supporting staff are conducted regularly, to maintain industrial relations, and establish work stations in the field of wireless communications, VLSI, and embedded systems. The Electronics and Communication Engineering department is also offering M.Tech program in Electronics and Communication Engineering with intake of 12 seats.

3. Overview of the FDP

This FDP is intended to provide opportunity for young faculty members working in various engineering colleges and research scholars to enrich their knowledge in the field of Communication Systems, especially Optical Communications and Fifth Generation (5G) Systems using various soft computing techniques and Machine Learning Algorithms. This course aims for an in-depth understanding of theoretical concepts in the above emerging and ever-growing technological areas. The FDP will be useful for the faculty and researchers who wish to pursue or pursuing research in the areas such as Communication Systems and Machine Learning Algorithms, Optical Communications, Optimization Techniques, Deep Learning, Soft computing techniques and Fraud detection in Telecommunications.

The FDP programme received national wide response with participation from academics, industry, and research scholars. The FDP is organized online using the 'Google meet', during March 14th to 19th, 2022 .The inauguration of FDP has been held on 14th March 2022 at 10:30 AM, the first day and start of FDP. The inaugural session holds more than 150 people including college staff and participants of FDP.Sri.C.Gangi Reddy, Honorable Chairman-AITS, Mr.C.Abhishek Reddy, Executive Director-AITS, Dr.P.V.Krishna Murthy, Principal-AITS, Dr.A.SreenivasaRao, Convener, HoD-ECE and Mr.NiteshGaikwad, Co-ordinator addressed the participants. The Assistant Prof. Mrs.D.Lohitha,presented the welcome and opening address of the FDP, then principal addressed about Machine Learning Algorithms and Convener elaborated the aim of FDP and role of Communication Systems using Machine Learning Algorithms in latest emerging trends.

This FDP aims to facilitate the faculty and research scholars to carry out Research and Development activities in amalgamated confines of these technologies. There are more than 300 participants have been registered from academia and industry from 11 states Tamilnadu, Telangana, Andhra Pradesh, Chandigarh , Jharkhand, Uttar Pradesh, Maharashtra, Delhi, Odessa, Haryana, Gujarat, Madhya Pradesh, Karnataka, Kerala, West Bengal, Pondicherry, Chattisgarh, Himachal Pradesh and Rajasthan across India and overseas like Oman and Saudi Arabia. This FDP is planned to have 10 sessions and 2 sessions per day and last session dedicated for Valedictory. The FDP course includes lectures on, Machine Learning in Communications, Introduction to deep learning and its applications ,Optical communication and Machine learning ,OFDM for frequency selective Rayleigh fading channels, Fraud detection in telecommunication. The resource persons are eminent personalities from IITs, NITs, and international universities.

The FDP was concluded with the speech of valedictory function on 19th March 2022, the coordinator motivated the delegates to utilize these types of FDPs to enhance their knowledge in specific areas. The Principal, Dr.P.V.Krishna Murthy Garu has stressed on importance of Machine learning and its Applications, in our day to day life and Dr. A.Sreenivasa Rao, HoD-ECE has mentioned that these kinds of events are necessary to get acquainted with advancements in the fields of wireless communication technology and also said, it's an opportunity for him to interact with the young faculty and researchers to share the knowledge and experience. He enlightened the participants the qualities that a good teacher should have.

The Day-wise schedule of resource persons, general feedback and suggestions of all participants are included in appendix. The FDP proposal and its approval letter, FDP brochure, list of participants, detailed statement of income and expenditure and sample participation certificate towards organizing the FDP are enclosed in Annexure-I to VII, respectively.

Shri C. Gangi Reddy, Chairman of Annamacharya group of Institutions located at Andhra Pradesh and Telangan states and completed his Masters in Commerce and being selected in APPSC Group-II, Shri C. Gangi Reddy garu served as a Sub Register in the registration department of AP Government in his initial days. He, later then, became the District Registrar for Ranga Reddy district in the year 2005 and took voluntary retirement in the year 2009. The State Government of Andhra Pradesh conferred on him "Rayalaseema Ratna" award in recognition of his commitment to uplift the rural region of Rayalaseema by means of providing top-class education. C. Gangi Reddy also received the coveted Edupreneur Award 2013 in Awarding Ceremony in New Delhi presided over by Dr.Shashi Tharoor, Former Union Minister of State for Human Resource Development, for his outstanding contribution towards engineering education in the JNTU Anantapur region. He is the first person from Kadapa District to receive this honour

Shri C. Abhishek Reddy, specialised in International Marketing and Project from UK, vigorously endeavours for the uplift of the students in the region. Being an advisor for an MNC (Halifax Bank of Scotland) in London, he understands the world affairs. With this expertise, he has initiated to build a system in Annamacharya Group as a Treasurer.

As a student coordinator, he visited several countries: France, Malaysia, Singapore, UAE, Qatar, Germany, Belgium, US to understand the educational culture and took the best of each nation. He strives to implement them in Annamacharya Institutions by redefining the concept of education.

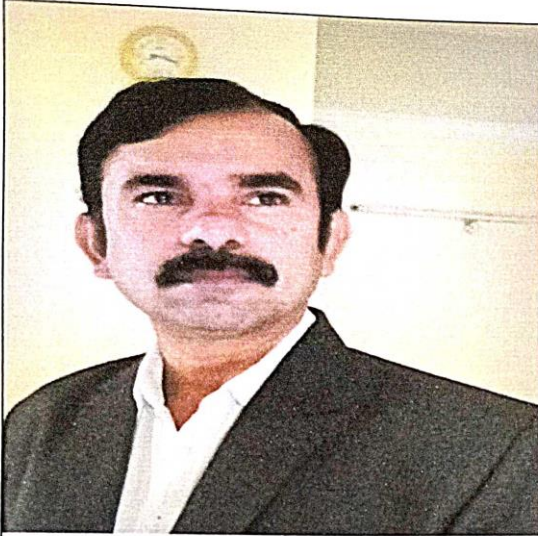

Dr. P. Venkata Krishna Murthy, Principal of Annamacharya Institute of Technology and Sciences, Hyderabad. He completed his Ph.D degree from J.N.T.U, Hyderabad in Mechanical Engineering department. He has above 20 years of Industrial experience with HMT and 18 years of teaching experience with different capacities. He published various reputed International Journals more than 128 and 12 national Journals. He is reviewer for some reputed journals like Journal of the Brazilian Society of Mechanical Science and Engg, Springer. On this special occasion, he appreciated the department faculty and participants.

Dr.A.SreenivasaRao, convener of CSMLA FDP-2022 received Ph.D degree from Veer Bahadur Singh Purvanchal University, Jaunpur,Uttarpradesh.He is currently working as HOD-ECE, Associate Professor at Annamacharya Institute of Technology and Sciences and, given the participants the glimpses of ECE department activities in conducting faculty development programmes, and workshops for training students and faculty. Mentioned in his speech the department has highly motivated teaching faculty with average teaching experience of 7 years.He highlighted the two centres of excellence established under Department of ECE, Wireless Communications and IoT to boost the skills of the students as per the industry requirements through workshops with eminent speakers from industry.

Prof.Ganapati Panda is currently working as a Professor and research advisor at C.V.Raman Global University, Odisha, Bhubaneswar, India, and Professor Panda served as the Deputy Director, Dean (Academic Affairs). In his speech, he said this kind of FDP is to update the knowledge as technology is advancing very rapidly. He said that the efforts of engineers in innovating several electronics instruments/devices (Cell phones, washing machines etc..) made our lives easier and mentioned that teaching faculty should put their efforts in bringing out quality engineers, such that newer technology are invented.

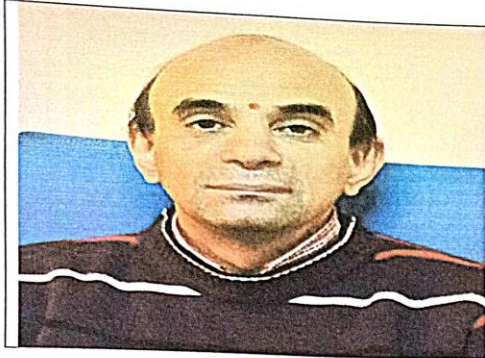

Prof.Ratnakar Dash received Ph.D degree from National Institute of Technology, Rourkela, India, in 2013.He is currently working as Assistant Professor in the department of Computer Science and Engineering at National Institute of Technology, Rourkela, India.. He congratulated the Department of ECE in organizing FDP in the field of Communication Systems using Machine Learning Algorithms. Also suggested the participants to be sincere and acquire the knowledge from the expert lectures of the FDP.

Prof.K.Vasudevan completed his Bachelor of Technology from the department of Electronics and Electrical Communicating Engineering, IIT Kharagpur, India and his MS and Ph.D from the department of Electrical Engineering, IIT Madras, in the years 1996 and 2000 respectively. During 1991-1992, he was employed with Telephone industries Limited, Bangalore, India. He was a post-doctoral fellow at the mobile Communications Lab, EPFL, Switzerland, between Dec 1999 and Dec 2000 and an engineer at Texas Instruments, Bangalore, between Jan 2001 and June 2001. Since July 2001, he has been a faculty at the Electrical department at IIT Kanpur, where he is now a professor. His interests lie in the area of communications and Signal processing.

4.2 Presentations by Resource Persons of FDP

Day	1
Date	14/03/2022 A.N.
Time	2 Pm to 4: 00 pm
Title	Machine Learning in Communication
Name of the Resource person	Prof.Ganapati Panda, IIT Bhubaneswar, India

Summary of the Lecture

In this session, the speaker has given introduction to steps of data analysis, available techniques for different operations, Types of filters, Feature reduction, optimization-nature inspired techniques, Computational intelligence and applications of AI/Machine learning.

Day	2
Date	15/03/2022 F.N
Time	10:30 am to 12:30 pm
Title	Introduction to deep learning and its applications
Name of the Resource person	Prof.Ratnakar Dash NIT, Rourkela, India

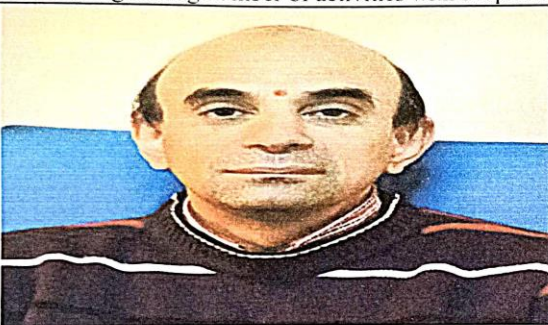

Summary of the Lecture

In this session, the speaker gave presentation on deep learning importance evidence from the relationship of amount of data, performance of the model and deep learning and hidden layers.

	Time	2:00 pm to 4:00 pm
	Title	Machine learning in computer vision
	Name of the Resource person	Mr.J.Kondal Rao Assistant Professor NIT,Rourkela,India
Summary of the Lecture In this session, the speaker explained Machine learning concepts and deep learning and how the computer vision is organizing number of activities with deep learning and mentioned number of applications.		
	Day	3
	Date	16/03/2022 F.N
	Time	10:30 am to 12:30 pm
	Title	OFDM for frequency selective Rayleigh fading channels
	Name of the Resource person	Prof.Kasturi Vasudevan IIT Kanpur
Summary of the lecture In this session, the speaker explained Importance of MIMO-OFDM for the current technology 5G standard, discrete time algorithms, channel estimation, carrier and timing synchronization and turbo coding of the data and MIMO antennas design.		
	Day	3
	Date	16/03/2022 A.N
	Time	2.00 pm to 4:00 pm
	Title	Secure communication and chaotic crypto system for image encryption with deep learning
	Name of the Resource person	Dr.B.Acharya Assistant Professor, NIT Raipur, India
Summary of the lecture In this session, the speaker explained Intelligent data analytics and various methods in deep learning, importance of Cryptography, the series of encryption and plays a central role in mobile phone communications, pay T.V.,E-Commerce, classification of cryptography systems.

4.3 Valedictory Session (19th March 2022)

The valedictory session is scheduled at 2:30 PM on 19th March 2022. Mrs. R.Vijaya, Associate professor of ECE department had given the welcome speech to start valedictory session with warm welcome to the senior professors of ECE Department and all the participants.

Mrs. R.Vijaya, addressed the participants and given overall report with regard to conduct of the FDP. She thanked all the participants for their interest, active participation and enthusiasm for the FDP. She thanked to all the core team of FDP. She made a special note of thanking to Chief Patron Shree C.Gangi Reddy Garu, Shree C.Abhishek Reddy Garu, Patron and Principal Dr. P.V.Krishna Murthy Garu, Head of our department Dr.A.Sreenivasa Rao garu, FDP Coordinator & CSE department Faculty Dr.K.Sathish sir, and Heads of all departments for the encouragement they have given and for the assistance they have provided in making FDP a grand success and reality.

Dr. A.Sreenivasa Rao, Head of the department of ECE and convener of FDP, addressed the participants, that for a teacher two things are very important the clarity of topic and clarity of speech. He advised the participants to plan their teaching and research career in way to enrich technological advancements by training young minds. He reminded that the 8 lectures of FDP in allied field of Communication systems using machine learning algorithms will form foundation for above motivation. He also encouraged the participants to implement research based on the training received in this FDP. Finally, he appreciated the coordinators and organizing committee of department of ECE and other technical staff for their involvement in making this FDP a grand success.

Associate Professor Mr..Nitesh Gaikwad Coordinator of FDP congratulated the coordinators and convener of FDP for all the initiative taken to make this event possible. In his speech, he said this kind of FDP is to update the knowledge as technology is advancing very rapidly. He said that the efforts of engineers in innovating several electronics made our lives easier and mentioned that teaching faculty should put their efforts in bringing out quality engineers, such that newer technology are invented, which can possibly serve the human race for years.

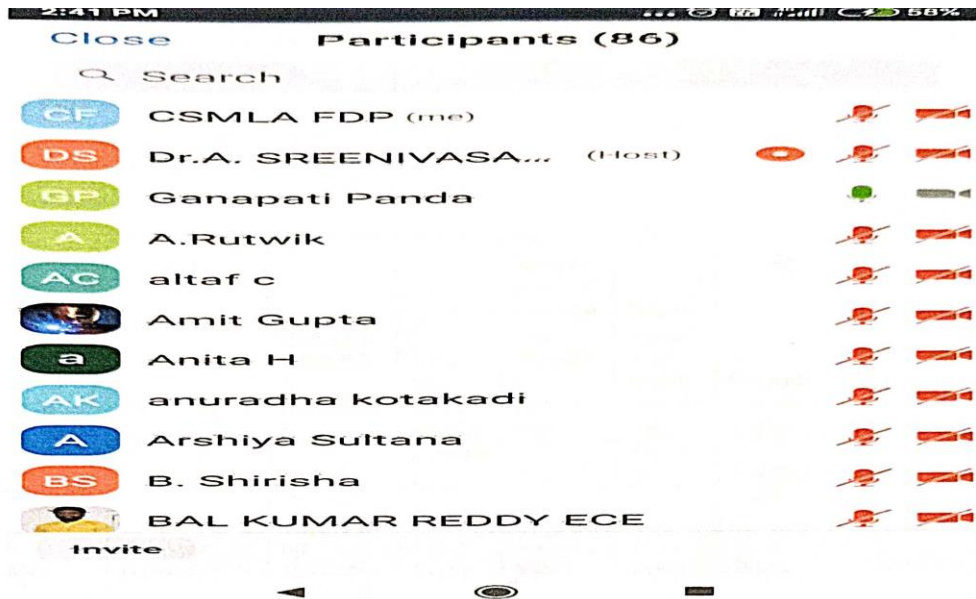

Participants were asked for feedback, they responded and felt the FDP is planned and conducted well in time without any delays and technical glitches and the sessions are really brainstorming. The valedictory session is ended with vote of thanks by Mrs.R.Vijaya, Associate professor of Department of ECE. All the members involved in organizing this FDP are thanked for extending their consistent support and special thanks to participants for their active participation and cooperation.

About the College

Annamacharya Institute of Technology and Sciences (AITS), Batasingaram, Hyderabad, Telangana was established in the year 2005 to play a pivotal role in the development of the intellectual capital in engineering fields. Annamacharya educational trust was founded in the year 1997 by a group of highly educated and service minded individuals with a noble intention of providing professional and higher education to the students. The college has excellent infrastructural facilities and modern laboratories. It also has highly competent and dedicated faculty. The college offers undergraduate programs in various engineering branches namely CSE, ECE, EEE, ME & CE with a total intake of 390 students. The college is accredited by NAAC with A score of 3.06 in A.Y. 2014-15. AITS also offers postgraduate program in MBA with an intake of 60 students and M.Tech programs in ECE and CSE disciplines.

About ECE Department

The ECE department was established in the academic year 2006 with an annual intake of 60 students. The number students further went up to 120 in the year 2007. The Department comprises of a team of dynamic, well qualified and experienced academicians with vast research experience in their respective fields. It is a strong team striving to incorporate excellence in theory and practice. The ECE department also has been propagating research based knowledge through various conferences. The main aim of ECE department is to provide better quality education, as per the latest industrial needs, and train the faculty in new technologies on a regular basis. The education programmes for the development of students, faculty members and supporting staff are conducted regularly, to maintain industrial relations, and establish work stations in the field of wireless communications, VLSI, and embedded systems.

Aim of the Programme

This FDP is intended to provide opportunity for young faculty members working in engineering colleges and research scholars to enrich their knowledge in the field of Wireless Communication Systems, especially in Machine Learning Algorithms (MLA) using various soft computing techniques and Machine Learning Algorithms. This course aims for an in depth understanding of theoretical concepts in the above emerging and ever growing technological areas. The FDP will be useful for the faculty and researchers who wish to pursue or pursuing research in the areas such as Machine Learning Algorithms, Optical communication and Machine Learning, Machine Learning in communication, Introduction to deep learning and its applications.

Topics to be covered:

Optical communication, Machine Learning, Machine Learning in communication, Introduction to deep learning and its applications, Biological data analysis using machine learning and deep learning Techniques, Secure communication & chaotic crypto system for image encryption with deep learning.

Resource Persons:

Eminent personalities with expertise in related fields from reputed institutions of IITs, NITs, and International Institutions.

Eligibility:

Faculty of technical institutions with Electronics & Communication Engineering, Computer Science and Engineering, Machine Learning and Information Technology departments and research scholars in the relevant technical areas.

General Information:

Participants are requested to register by filling in the online registration form using the link provided below and send the scanned copy of duly filled form.

No registration fee for this FDP.

Performance Measures

Few Examples:

- ❖ Accuracy- It is the function of prediction or classification a model got right.
- ❖ Sensitivity- It is a measure of the proportion of actual positives that are identified correctly.
- ❖ Specificity- It is a measure of the proportion of actual negatives that are identified correctly.
- ❖ False Positive Rate- It is the proportion of individuals having negative condition for which the test is positive.
- ❖ False Negative Rate- It is the proportion of individuals having positive conditions for which the test is negative.
- ❖ Receiver Operating Characteristics (ROC)- ROC curve indicates the trade-off between sensitivity. It is a measure of usefulness of a test if the test is more useful if the area under the curve is larger.
- ❖ RMSE- It is a standard way to measure the error of a model in predicting quantitative data.
- ❖ MAE- It is an absolute deviation of a dataset is the distance between the predicted and actual data point.

The training phase is nothing more than the phase during which we estimate the weights (also called parameters) of the model.

Loss Function

$$J(w) = \frac{1}{n} \sum_{i=1}^n L(f(x^{(i)}; w), y^{(i)})$$

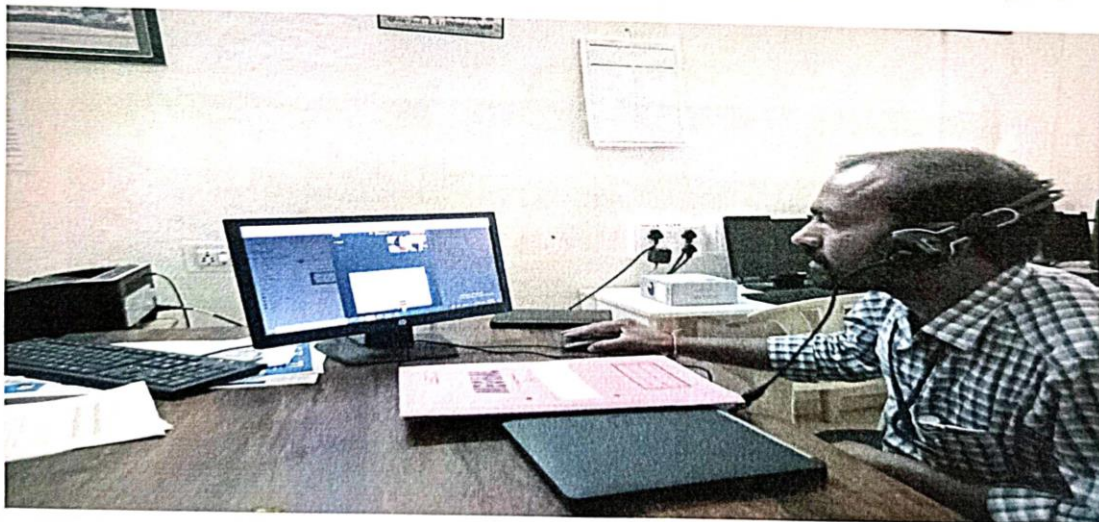

Since the loss is a function of the network weights, our task is to find the set of weights w that achieve the lowest loss:

If we only have two weights w_0 and w_1 , we can plot the following diagram of the loss function.

Objective Function
 $w^* = \operatorname{argmin} J(w)$
