DAY CARE

Child care is a critical resource to alleviate some of the stress of caretaking, and ease the strain of juggling competing priorities and obligations. It is one of the most effective ways that colleges can help their employees in completing their work without being worried about the child's welfare. Our campus provides an on campus care center which is much less affordable and high in quality. Over the years, AITS has maintained the day care with essential products and services. Many faculties in the campus have used this resource of AITS day care center.
